

*“If I ever have a serious illness I hope it’s here instead of in Florida.”*

*McGregor Smith, Jr., 80  
Retired, Co-Founder and current Advisory Board Member of  
the Earth Ethics Institute, Miami Dade College  
Part-time resident, Lake Junaluska*

“At HRMC, I am much more comfortable, have more confidence in the system and appreciate how the doctors and staff really listen. They treat people humanly and they do a good job of recruiting physicians who are young, well educated, experienced and who want to raise their families here.”

“The focus on prevention is something they appreciate at HRMC. Doctors elsewhere don’t seem to put much credence in things like that – but I do.”

“I’m impressed that I could get so many tests and results from just being in the Emergency Room and not have to be admitted.”
